

BURGA CLIP®

Burgaflex

Geachte cliënt,

Het doet ons genoegen U hiermede onze nieuwe catalogus van airconditioning slangen en fittingen te mogen presenteren, met de door Burgaflex ontworpen **BURGACLIP®** fitting technologie. Deze 'State of the Art' fitting is een doorbraak in de airconditioning industrie, waar tot op heden enkel opgeperste en verwisselbare koppelingen op de aircon slangen werden toegepast. Burgaflex maakt het U mogelijk middels een eenvoudige handeling de slang/fitting verbinding tot stand te brengen voor verschillende toepassingen in de aircon en/of transport koeling industrie.

De **BURGACLIP®** fitting technologie werd jaren getest op alle in onze industrie voorkomende speciale eisen (SAE J2064 en meer) en geeft U behalve het eerder genoemde assemblage voordeel ook een uitzonderlijk resultaat in lektheid, namelijk > 75% minder uitstoot dan de tot op dit moment in de markt beschikbare aircon slangen.

Niemand in onze industrie kent de airconditioning slangen en fittingen beter dan de medewerkers van Burgaflex en onze jarenlange ervaring geeft ons een absoluut voordeel boven andere leveranciers. Aarzel niet contact op te nemen met de Burgaflex vestigingen.

Wij danken U voor Uw vertrouwen.

Dear valued customer,

We have pleasure in presenting you our new catalogue of air conditioning hose and fittings with the developed **BURGACLIP®** fitting technology. This "State of the Art" Burgaflex hose fitting is a breakthrough in the air conditioning industry, where until this moment in time only crimp and/or field attachable fittings were used. Burgaflex allows you via a simple procedure, to attach the fitting to the hose for many applications in the Aircon/Transport and Commercial Refrigeration industry.

The **BURGACLIP®** fitting technology had been tested for years and all tests outlined and required by the industry, such as SAE J2064 and many more, have been taken into consideration. Apart from an easy and quick assembly of the fittings on the hose, we are proud to be able to advise you now, that this hose/fitting combination provides you a permeation rate, which is > 75% less than the presently available air conditioning hose assemblies on the market.

No one knows the air conditioning hoses and fittings better than the people at Burgaflex. Our many years of experience give us a big advantage over other suppliers. By specializing in just one type of product, we have more to offer in terms of range and sizes, customer service and technical assistance. We will be only pleased to send you a quotation for products, which may be of a specific design but are not shown in our brochure. Please do not hesitate to contact the Burgaflex plants.

Thank you for doing business with Burgaflex.

Cher client,

Nous avons le plaisir de vous présenter notre nouveau catalogue de tuyaux et raccords pour l'air conditionné, actualisé de notre technologie de raccordement **BURGACLIP®**. Ce nouveau type de raccord est une révolution dans l'industrie de l'air conditionné, pour laquelle n'étaient disponibles jusqu'à présent que les raccords sertis ou vissés. Burgaflex vous permet, désormais, l'emploi d'une méthode simple de raccordement des tuyaux pour nombre d'applications dans les domaines de la climatisation et de la réfrigération automobile.

La technologie **BURGACLIP®** a été de trois ans selon les normes requises par cette industrie, telle la SAE J2064 et autres également prises en considération. En dehors d'un emploi simple et rapide du mode de raccordement sur le tuyau, nous sommes fiers de vous annoncer, de plus, que cette combinaison tuyau/raccord résulte en une diffusion de > 75% inférieure aux canalisations actuellement disponibles sur le marché.

Personne ne connaît mieux les tuyaux et raccords d'air conditionné que Burgaflex. Notre longue expérience nous procure un avantage précieux par rapport aux autres fournisseurs. Spécialistes de cette fonction, nous avons plus à offrir en terme de gamme, dimensions, service clientèle et assistance technique. Nous serons heureux de répondre à vos demandes, y compris pour des conceptions spécifiques non illustrées dans notre brochure. N'hésitez pas à contacter les unités Burgaflex.

Merci de votre confiance.

Sehr geehrter Kunde,

wir freuen uns, Ihnen unseren Katalog für Kältemittelschläuche und Fittings mit der neu entwickelten **BURGACLIP®** Technologie präsentieren zu dürfen. Dieses, dem Stand der Technik entsprechenden Burgaflex-Schlauch-Fitting stellt einen Durchbruch für den Bereich der Klimaanlage-Industrie dar, wo bisher nur Press- und Schraubarmaturen verwendet wurden. Burgaflex ermöglicht es Ihnen mit einem äußerst einfachen Prozess, Fitting/Schlauchverbindungen für vielfältige Anwendungen in der Klima- und Transportkältetechnik herzustellen.

Das **BURGACLIP®** System wurde langjährig getestet, wobei alle Prüfungen, die von der Kälteanlagenindustrie gefordert werden - insbesondere die SAE J2064 - berücksichtigt wurden.

Mit Stolz können wir Ihnen, neben der einfachen und schnellen Montage, einen Kältemittelschlauch zur Verfügung stellen, der bis > 75% niedrigere Permeationswerte als andere auf dem Markt verfügbare Produkte aufweist.

Wir von Burgaflex sind Ihre Fachleute für Kältemittelleitungen, -Schläuche und Fittings. Unsere langjährige Erfahrung ist Ihr Vorteil.

Durch Spezialisierung auf eine Produktparte können wir Ihnen eine äußerst große Teilevielfalt, einen überlegenen Kundenservice sowie kompetente technische Unterstützung anbieten.

Wir freuen uns, Ihnen Teile aus unserem Standardprogramm als auch kundenspezifisch abgestimmte Teile, die Sie nicht in unserem Katalog finden, anbieten zu dürfen.

Bitte zögern Sie nicht, unsere Werke zu kontaktieren.

Wir danken Ihnen für Ihr Vertrauen.

Değerli Müşterilerimiz,

Klima hortum bağlantılarında yeni geliştirilen **BURGACLIP®** rakorlama sistem kataloğunu size sunmaktan memnuniyet duyuyoruz. Bugüne kadar kullanılan geleneksel rakorların ötesinde; yeni Burgaflex hortum rakorlama sistemleri soğutma endüstrisinde bir dönüm noktası oluşturmaktadır.

Burgaflex, soğutma sektörü ve ticari araçlar klima ve soğutucu uygulamalarında hortum ve rakor bağlantılarına basit bir metotla çözüm getirmektedir.

BURGACLIP® teknolojisini SAE J2064 ve diğer uluslararası standartların öngördüğü şekilde ve üç yıldan daha fazla bir süre ile test edilmiştir. Hortum ve rakorlarda hızlı ve kolay bağlantı sağlamanın yanı sıra bu sistem piyasada mevcut klima hortum bağlantılarına göre yılda %75 daha az gaz geçirgenliğine sahiptir.

Hiç kimsenin klima hortum ve rakorlarını Burgaflex'den daha iyi tanıyamayacağını düşünüyoruz. Burgaflex, sektöründe uzun yıllar boyunca belirli bir ürün tipi üzerinde haklı deneyim kazanmış olmanın avantajıyla, ürün temin etmenin ötesinde müşteri odaklı hizmet ve teknik destek sunmaktadır. Bu katalogta bulunmayan özel uygulamalara yönelik tasarlanmış ürünler için bile Burgaflex sizlerin taleplerine yanıt vermekten memnuniyet duyacaktır. Burgaflex ve Türkiye'deki merkezlerinden biri ile iletişime geçmeniz yeterli olacaktır.

Burgaflex ile çalıştığınız için teşekkür ederiz.

Slangconstructie : Een naadloze binnenslang van synthetische (CR) rubber, ommanteld met een nylon tube en versterkt met 1 braid. Buitenmantel van een slijtvaste oliebestendige synthetische rubber (Butyl), welke geperforeerd is.

Kenmerk : Slang wordt aangeduid door bestelnummer en slangmaat.

Toepassing : Speciaal ontworpen voor het gebruik met Freon 12 - R134A - Suva MP52, R22, HFO1234yf.

Temperaturen : -35°C tot +125°C

Hose construction: Seamless synthetic rubber (CR) innertube, covered with a nylon layer and reinforced with one braid. Hose has a weather, oil and abrasion resistant rubber cover (Butyl), which is perforated.

Identification Uses : Hose is identified by partnumber and size. Designed specifically for automotive and commercial lines carrying Freon 12 - R134A - Suva MP52, R22 and HFO1234yf.

Temperatures : -35°C thru +125°C

Schlauchaufbau : Synthetischer (CR) nahtloser Gummi Innenschlauch, mit einer Nylonzwischenlage, PET Druckträger. Wetter- und abriebbeständige Decke aus Chlorbutyl (CIIR) mit geringer Wasser dampfdurchlässigkeit, Decke nadel gestochen.

Kennzeichnung : Der Schlauch ist mit abriebfestem Aufdruck von Artikelnummer und Größe gekennzeichnet.

Anwendungen : Entwickelt für Automobiel- und Industrielle Anwendungen mit R134a, HFO1234yf sowie für die meisten Blends und Kältemaschinenöle.

Temp.bereich : -35°C bis +125°C

* indication specifications								

Construction : Tube intérieure caoutchouc synthétique (CR), une couche en nylon, renforcé par 1 braid avec une robe extérieure de caoutchouc synthétique (Butyl).

Identification : Le tuyau est identifié pas sa référence et son module.

Utilisation : Circuits de réfrigération Freon 12 - R134A - Suva MP52, R22, HFO1234yf

Températures : -35°C à +125°C

Hortum yapısı : Hortum iç katmanı sentetik kauçuk (CR), naylon tabaka giydirilmiş ve tek sıra örme. Hortum iklim şartlarına, soğutucu yağ ve aşındırıcılara karşı dirençli (Butyl) kauçuk ile kaplanmış ve perfore edilmiştir.

Tanımlama : Hortum çap ölçüsüne göre tanımlanır.

Kullanım Alanı : Otomotiv ve ticari araç soğutucularında kullanılan yaygın Freon 12 - R134a - Suva MP52, R22 ve HFO1234yf soğutucu gazlarına uygun olarak tasarlanmış ve geliştirilmiştir.

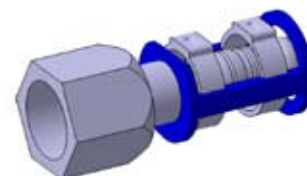

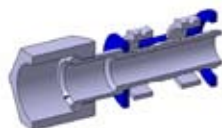

Çalışma sıcaklığı : - 35 °C ile +125 °C

Fittingen uit één stuk of bestaande uit delen hebben een overeenkomstige maatvoering. Beide uitvoeringen kunnen worden geleverd.
 Raccords d'une seule pièce ou composé de pièces ont les mêmes dimensions. Les deux versions peuvent être fournies.
 Armaturen aus einem Stück oder aus mehreren Stücken haben dieselbe Abmessungen. Beide Ausführungen können geliefert werden.
 Tek parçadan oluşan rakorlar veya parça bileşenleri aynı ölçülere sahiptir. Her iki tipin de temini mümkündür.

1. De slang snijden.

Snij de slang op de juiste lengte met behulp van de Burgaflex snijtang (nr. 8767). Snij de slang haaks af.

Cut the hose.

Cut the hose to proper length with the Burgaflex hose cutter (nr. 8767). à couper. The cut must be made normal to the hose length.

Coupe du tuyau.

Couper le tuyau à la longueur désirée à l'aide de pince Burgaflex (nr. 8767). La coupe doit être perpendiculaire par rapport à l'axe du tuyau.

Schlauch abschneiden.

Den Schlauch mit dem Burgaflex Schneidewerkzeug (Nr. 8767) auf die richtige Länge zuschneiden. Der Schnitt muß im rechten Winkel zur Schlauchachse erfolgen.

Hortumu kesin.

Hortumu Burgaflex hortum makası (no. 8767) kullanarak istenen boyda hortumu kesin.

2. De twee clips in de clipholder plaatsen.

Plaats twee clips van het juiste formaat, in dezelfde richting, in de clipholder.

Place the two clips in the clip holder.

Install two proper-sized clips into the clipholder. For ease of assembly both clips should have the same orientation.

Placer les deux clips dans l'étriers de fixation.

Monter deux clips de taille appropriée dans l'étriers de fixation. Il est préférable que les deux clips soient orientés de même manière.

Vormontage der Clips in den Clip-halter.

Zwei Clips der entsprechenden Größe in den Clip-Halter stecken. Zur Vereinfachung der Montage sollten beide Clips gleich ausgerichtet sein.

İki adet kelepçeyi tutucu parçanın içine yerleştirin.

Uygun ölçülerde iki adet kelepçeyi plastik tutucu parçanın içine yerleştirin. Sıkma kolaylığı sağlamak için kelepçelerin sıkma çenelerinin aynı yönde olmaları gerekmektedir.

3. Clips en clipholder op de slang schuiven.

Plaats de clipholder met de twee clips op de slang. Zo, dat de zijde met de opening tegen het slangeinde aanligt.

Slip on the clipholder with the clips.

Place the clipholder with the two clips on the hose. In such a manner that the side with the smallest hole touches the end of the hose.

Montage d'étriers de fixation avec les clips.

Monter l'étriers de fixation avec les deux clips au Burgaclip fitting. De manière à ce que l'étrier soit du côté du tuyau.

Den Clip-Halter mit den Clips auf dem Schlauch montieren.

Der Clip-Halter mit den zwei Clips auf den Burgaflex-Kältemittelschlauch der entsprechenden Größe aufschieben, so daß die Seite mit der kleineren Öffnung am Schlauchende anliegt.

Tutucu parçayı kelepçeleriyle birlikte hortum üzerine yerleştirin.

Tutucu parçayı hortum çapına uygun delik yönünden düzgünce geçirerek yerleştirin. Tutucu parçanın alın yüzeyi ile hortumun alın yüzeyi tam temas sağlamalıdır.

MONTAGEHANDLEIDING
ASSEMBLY INSTRUCTION
INSTRUCTIONS DE MONTAGE
MONTAGEANLEITUNG

4. Burgaclip fitting smeren.

De fitting rijkelijk met PAG-olie insmeren. Dit is nodig om de fitting gemakkelijk in slang te schuiven.

Oil the Burgaclip fitting.

Lubricate the fitting with a generous amount of the A/C system's lubricator oil. This is to lower the force of the insertion.

Graissage du Burgaclip raccord.

Huiler abondamment le raccord avec de l'huile compresseur. Ceci est indispensable afin de réduire la force nécessaire pour introduire le raccord.

Die Armatur ölen.

Nippelende des Fittings leicht mit Kältemaschinenöl einölen um die zum aufsteckendes schlauches notwendige Kraft zu verringern.

Burgaclip rakoru uygun soğutma yağı ile yağlayın.

Rakurun hortuma rahatça girebilmesi için soğutma sisteminde kullanılacak kendi yağı ile rakor yağlanmalıdır.

5. De Burgaclip fitting in de slang brengen.

Breng de fitting in de slang. Om er zeker van te zijn dat de fitting volledig in de slang zit, mag er geen ruimte tussen de schouder en het einde van de slang zitten.

Insert the Burgaclip fitting into the hose.

Insert the fitting into the hose. Ensure that the fitting is fully inserted by checking the gap between the end of the hose and the shoulder of the fitting.

Introduction du Burgaclip raccord dans le tuyau.

Introduire le raccord dans le tuyau. jusqu'au contact de l'étrier.

Montage der Burgaclip Armatur

Fitting durch den Clip-Halter in den Schlauch stecken. Darauf achten, dass der Nippelbund am Anschlag des Clip-Halters anliegt.

Burgaclip rakoru hortuma sokun.

Rakurun hortuma doğru ve tam yerleştirildiğinden ve hortum ile rakurun alın altına tam temas sağladığından emin olun.

6. De RVS Clips sluiten.

Sluit beide Clips m.b.v. de Burgaflex Cliptang (nr. 8766). De tang opent zich als de juiste waarde is bereikt. Begin met de Clip het dichtst bij het slangeinde.

Close the clips.

Close both Clips with the Burgaflex Clip pliers (nr. 8766). The pliers open themselves when the right force has been reached. Start with the clip closest to the end of the hose.

Fermeture des clips.

Ouvrir la pince (nr. 8766) pour introduire les becs de clips. Puis refermer totalement la pince pour libérer les becs du clips.

Die Clips schließen.

Mit Hilfe der Burgaflex-Montagezange (Nr. 8766) beide Clips schliessen, wobei sich die Zange erst nach dem Erreichen des korrekten Pressmaßes wieder öffnen lässt. Beginnen Sie dabei mit dem Clip, der Richtung Schlauch positioniert ist.

Kelepçeleri sıkın.

Her iki kelepçeyi Burgaflex kelepçe sıkıcı el aleti (no.8766) kullanarak sıkın. Sıkıcı el aleti kelepçe tam olarak sıkıldığı anda kendi kendine açılacaktır. İlk olarak hortum ucundaki kelepçeyi sıkımla başlayın.

7. Klaar!

U heeft nu een slang/fitting-verbinding gerealiseerd die een duurzame afsluiting mogelijk maakt.

Done!

Now you have realized a durable hose/fitting connection.

Fin!

Vous avez réalisé un raccordement durable.

Fertig!

Sie haben jetzt eine definiert verpresste Verbindung hergestellt, die dauerhafte Dichtigkeit gewährleistet.

Hazır!

İşte şimdi uzun ömürlü bir hortum/rakor bağlantısını kolayca gerçekleştirdiniz.
